

Since long time ago I haven't got any news from you. I guess the fault is mine because of the too long letters I have written to you.

In spite of my 71 years old, nothing got clear to me, by the opposite. Or the world is each time more and more difficult, or my conscious has enlarged too much, and it is with difficulty I get enough energies to go ahead with my life by these days we are living.

In this season, that for me works like a kind of balance season, I want very hard that your wishes become true. Wishes yours I know are the opposite of bad things I guess 1992 will bring. Do we go ahead? Do we step on the same place? or do we go back? All the movement sometimes looks to me like a ~~kid~~ kid's illusion. Explaining better:

Kidnap the landscape
because it is the only one which knows the sex of water.
It's sure we have wonderful barbed wire gardens
but in there clever and mechanic birds live
meanwhile the performers on the stage
will look all the eternity for a pointer
among the liquids memories.
Just the eggly workers
on the never built bridge
sing
like if someone met at last a naked enemy.

My best regards

Yours

Tenho recebido a documentação da vossa actividade e o catálogo da sua expo. que me tem dado muito prazer, e que muito agradeço.

Desculpe se não escrevo com mais regularidade, mas estes meus 71 anos são muito pesados.
