July/10/2006

My Dear Arthur,

My warmest greetings and best wishes to you from the cliffs where I live above a wild sea - today the Dolphins returned to the bay & there was a beautiful sunrise - I have tried to capture a little of its beauty in the drawing I send you as a gift of friendship.

Thank you for the two drawings that you completed, after I had started them. I think that they

are wonderful - we work together
like two brothers on a marvellous
adventure - they are a great
pleasure to me, thank you.

I send you my greetings
and very warmest best wishes,

John.
